Although it may be a bit presumptuous on my part, I am responding to the NIS User Questionnaire in my role as supervisor and senior representative to the National Military Command Center, Office of the Joint Chiefs of Staff. A complete set of the NIS publications is maintained in the library of the NMCC for use by the various teams. While the Factbook is probably used more frequently than the NIS topical units in response to crash requirements and questions, the General Survey is consulted frequently. It has been my experience that the NMCC/JCS team chiefs and desk officers are most appreciative of the Agency's NIS publications because of the professionalism and clarity of such publications
